CORONAVIRUS UPDATE

We have had a number of enquiries from local community groups about when the Town Hall will open again? The Chairman and Members of the Chamber of Feoffees are aware of the desire locally for these facilities to be made available again and wished me to let you know that they are minded to reopen as soon as it is deemed safe to do so by the government.

The latest guidance suggests we may still be on course for a removal of all restrictions by June but as you will be aware this is subject to ongoing review and change by the government. The current position is that we are still waiting for clear guidance from the government on whether the limited access restrictions which were put in place last summer will continue to apply when we are first able to reopen the Town Hall or whether there will be new covid secure conditions to be implemented or even no restrictions at all! As and when the picture is clarified I will update you.

Hire charges - If access is initially restricted to reduced numbers, then for the duration of that period of restriction, we will exceptionally continue to charge £10 per hour to clubs and organisations requesting this limited access. Once this period ends normal charges will apply.
